

I am proud to welcome Perpetua Resources into our state and proud to support the Stibnite Gold Project.

As someone who grew up in a small mining town, I know first hand the wonderful things that mining can do for a community. The Stibnite Gold Project will be so good for the state of Idaho, adding jobs, cleaning up old mining areas and producing important minerals necessary for the future of green energy.

This truly is a win-win opportunity for Idahoans and the environment. After years of careful scrutiny by regulators and the community, it is time for us to make these benefits a reality.
