

I am writing to express my full support of Perpetua Resources and the Stibnite Gold Project. Over the past several years Perpetua has shown its commitment to Valley County and the state of Idaho. I encourage you to permit the improvements proposed by the company and move the project forward using the Burntlog Road route.

In order for Perpetua Resources' Stibnite Gold Project to move forward, the company must mitigate for any impacts the project will have on the environment. In the 2021 Modern Mining Plan of the SDEIS, the company has outlined how it can leave water quality on the site better than it is today and provide fish with access to more habitat. I was pleased to learn Perpetua Resources has also taken steps to protect air quality. According to analysis in the SDEIS hazardous air pollutants were found to be well below major thresholds and the Operations Area Boundary would not exceed the National Ambient Air Quality Standards. To me, these facts from the SDEIS demonstrate the proper checks and balances are in place to protect the environment.

The permitting process is working. The plan for the Stibnite Gold Project is improved. Now, it is time to move this project forward to a final record of decision.
