

Thank you for the opportunity to provide feedback on the Stibnite Gold Project as part of the National Environmental Policy Act.

I am a geologist with over 30 years in the mining industry, and I say let mining foot the bill for the ultimate clean-up while producing a mineral our government has deemed critical to our economy. It makes so much sense and is a win for the environment and a win for Idaho and for the U.S.

Thank you for your thorough review of the Stibnite Gold Project. I urge you to permit the mine using the 2021 Modified Mine Plan so Perpetua Resources can provide jobs with a living wage while cleaning up our environment.

Sincerely,

Nancy Oyer
