

This letter is to express my support of Perpetua's Stibnite Gold Project. America needs this project to be permitted. It would produce our country's only source of antimony, a mineral we need for a secure and sustainable future. I hope after reading my thoughts you will understand why my support for this project is so strong.

I've read the economic impacts section of the SDEIS, which estimates that the full compensation for Stibnite Gold Mine jobs would be \$67700/year and \$96600/year after accounting for health and employee benefits. The document says that this is about the same as the area's prevailing Davis Bacon rates of \$20-30/hour. You don't need to be good at math to see that the Stibnite Gold Mine jobs are going to pay a lot more than a Davis Bacon job – even \$30/hour is less than \$67k/year. Add in \$30000 in annual benefits and these are excellent jobs, the kind much needed for local workers to support local families, especially given inflation.

The permitting process is working. The plan for the Stibnite Gold Project is improved. Now, it is time to move this project forward to a final record of decision.

James Anderson
