

I am writing to express my full support of Perpetua Resources and the Stibnite Gold Project. Over the past several years Perpetua has shown its commitment to Valley County and the state of Idaho. I encourage you to permit the improvements proposed by the company and move the project forward using the Burntlog Road route.

The EIS document estimates that the project will generate \$29.4 million in taxes annually and create thousands of jobs for Idahoans and nationwide. I reviewed section 21 which summarizes the beneficial economic impacts from the project. The 2,690 jobs created by the mine during operations annually, and almost 5,000 jobs created during construction, would be a huge benefit to the local and state economies. Moreover, these would be high paying jobs offering good benefits and supporting workers families. This is exactly the kind of economic incentive that is needed in rural Idaho. The McCall area can't make it on tourism alone.

This project is a huge opportunity for Idaho. After 6 years of intense review, I encourage the U.S. Forest Service to permit the 2021 Modified Mine Plan so this brownfield site can finally be restored.
