

I am writing in support of the Stibnite Gold Project. The project will help restore the site, secure the minerals we need for our national security and strengthen America's supply chains. Thank you for the opportunity to provide my feedback as part of the National Environmental Policy Act.

Perpetua Resources has developed a plan to provide our nation with a domestic supply of antimony and protect the environment in the process. Perpetua is mindful of its impact and has designed its project to meet or exceed environmental thresholds. For example, modeling in the SDEIS showed the Operations Area Boundary would not exceed the National Ambient Air Quality Standards and mercury, nitrogen and sulfur would fall below significant impact levels. I believe Perpetua Resources can strike the balance of mining the materials we need safely, while also protecting and restoring the environment.

I urge you to accept Perpetua Resources' plan as outlined under the 2021 Modified Mine Plan and continue moving this project forward.

Rosemary Douglass
