

# JELICO VEGETATION MANAGEMENT PROJECT COMMENT FORM

## Instructions:

Comments are due December 5, 2022

Communications from the public regarding this project, including commenters' names and contact information, will become part of the public record. Comments, including anonymous comments, will be accepted at any time. However, comments posted after the close of a designated comment period may not be able to be given full consideration. Anonymous comments and comments submitted after the close of the final designated comment period will not provide the commenter standing for administrative review. Comments, or in some cases other expressions of interest, along with respondent's contact information, submitted during the comment period may be necessary to establish a respondent's eligibility to participate in an administrative review for this proposed action. Interested members of the public should review the proposal's information to determine the applicable administrative review process and the eligibility requirements for that process.

COMMENTS (continue on back, as needed):

I am against clear cutting. I see no benefit in clear cutting, only destruction. If you look at what private land owners are doing, most are clear cutting. In KY, a management group, are destroying all of their properties. No enforced regulations on logging, state forestry not enforcing any laws. No water bars,  
(over)

no seeding. Also, loggers are allowed to pull logs down stream beds, complete destruction.

I think you should put 16" limit on hardwood, nothing smaller. Consider logging with helicopters instead of dozers and skidders. This eliminates logging roads everywhere.
