Prineville, OR 97754

REF: Lemon Gulch Trails Project #58831

Dear Mr. Turner:

Attached is a copy of a letter addressed to you from my good friend, Ted Lyster. I have read the letter, am familiar with the project and in agreement with the contents of the attached letter. I am particularly concerned that

1. The general public was not involved early on.
2. That no EIS has been requested in view of the lack of science and professional, technical evaluation, especially in regards to the major areas of wildfire, grazing, wildlife, and invasive plants.

I urge you to request an EIS be ordered and the general public be invited and included in all future proceedings.

Sincerely,

(Full Name and address)

Jeff Follose
