

I am writing to express my full support of Perpetua Resources and the Stibnite Gold Project only under the following conditions:

Company officials will be held criminally liable for any and all pollution they may cause by any and all means or manner; the company is wholly owned by a only American Citizens with no ownership by any and all non American Citizens; and that all minerals that are produced or refined stay within the boundaries of the United States.

Otherwise I would urge the any Us Government agency to DENY any and all permits to mine and require all clean up of existing environmental hazards that now exist on the property.

ER Sjoso
