

I am writing to express my full support of Perpetua Resources and the Stibnite Gold Project. Over the past several years Perpetua has shown its commitment to Valley County and the state of Idaho. I encourage you to permit the improvements proposed by the company and move the project forward using the Burntlog Road route.

I agree with regulators and feel strongly that the preferred alternative is the best option for the Stibnite Gold Project moving forward. This option utilizes Burntlog Road. According to the SDEIS, this route would avoid environmental and safety risks associated with the avalanche and landside prone Johnson Creek Road. We need the minerals from Stibnite and Burntlog will allow mining to move forward while minimizing the impacts of mining on the community. Burntlog will reduce mine traffic interactions with the public and decrease the potential for spills near fish-bearing streams.

For the above reasons and many more, please move forward with the 2021 Modified Mine Plan for the Stibnite Gold Project as it is important to all Idahoans. After more than 12 years of scientific analysis by the company and six years of regulatory review that the project, we should not have to wait much longer to recognize the project's benefits.
