

I am writing to share my thoughts on Perpetua Resources' Stibnite Gold project. There are many reasons why I am excited for Perpetua's project to come to life. It would provide America with our only mined supply of antimony, a mineral critical to our national defense and energy sectors. I hope through my comments you will understand why I want to see this project move forward.

A diverse economy is a strong economy. I am excited about the year-round employment opportunities and other benefits the Stibnite Gold Project will bring to the region. The economic impacts of the project have been closely analyzed by the USFS and numerous other independent, third-party analysts. I know some are concerned about the project's impacts to tourism. However, analysis by the USFS in the DEIS importantly concluded that the Stibnite Gold Project would have negligible socioeconomic impacts to the region's recreation tourism sector. I hope the Stibnite Gold Project will be allowed to move forward utilizing Burntlog Road, so we can provide more than 500 family-wage jobs to Idahoans and inject millions into the local economy.

I urge you to approve Perpetua Resources' project. The Stibnite Gold Project will provide a huge benefit to our community and the local environment and the company has taken the time to reduce its footprint and improve water quality at site. The permitting process is designed to move the best plans forward and I feel that is what we will do with the 2021 Modified Mine Plan.

Thank you

Emma Vanhooose
