

I am writing to express my support for Perpetua Resources and the Stibnite Gold Project.

I am the Controller for Perpetua Resources. When I left my previous position of Valley County Treasurer, where the Stibnite Gold Project is located, I decided I wanted to try to work with Perpetua Resources because I believe it is an excellent company that has already done substantial restoration work in the Stibnite area. I have been following Perpetua's work for the last 10+ years and provided my support when I was a member of the Donnelly City Council for a 10 year period also.

I am excited about the economic and environmental benefits that the Stibnite Gold Project will provide to Valley County. Perpetua has proven that it is committed to restoring the site and to being environmentally and socially responsible.

With the need for a domestic source of antimony becoming more critical all the time it is important that the Stibnite Gold Project is advanced. Sincerely,

Gabe Stayton
