

Outdoor Alliance collected the following 649 signatures on this letter in opposition to the Stibnite Gold Project. If you have any questions, please contact Tania Lown-Hecht, tania@outdooralliance.org. Thank you!

Sign on to the comment to the Forest Service below:

Mining has serious consequences for the surrounding lands and waters. The proposed Stibnite Gold Project in the headwaters of the South Fork Salmon River watershed has the potential to pollute, damage, or destroy invaluable resources, including incredible outdoor recreation, wildlife and fish habitat, Wilderness and Roadless areas, other Wild and Scenic or potentially Wild and Scenic Rivers, and the surrounding communities. The mine is also in direct conflict with the treaty rights for the Nez Perce tribe, who have treaty-reserved rights that depend on an intact landscape. Moving forward with the mine means catastrophic damages to valued resources.

Given the complexity of the project and the scope of the current environmental impact statements (thousands of pages), the public must have an extended comment period to better understand and respond to the proposed protect. To begin, we ask that you extend the comment period to 120 days to allow for more time to read, digest, and respond to draft materials, especially given the holidays that will make it much more difficult to process the DEIS and supplemental DEIS.
