

I am writing in support of the Stibnite Gold Project and the benefits it will bring to Idaho.

This project, among others, is needed if the USA is ever going to reach the objectives of reducing our CO2 emissions. The minerals necessary to reach this objective will only be met if we allow projects like the Stibnite Gold Project to move forward.

I urge you to accept Perpetua Resources' plan as outlined under the 2021 Modified Mine Plan and continue moving this project forward.
