

Linda Jackson,

MISSOULA MT 598

JAN 12 2023 PM 1 T

I am writing this letter in strong opposition to the reopening of the Stibnite mine on the South Fork Salmon.

Most importantly, I urge you to extend the public comment period to a proper 120 days. This issue is far too complex for a short 75 day comment period. There is no way the FS will hear from everybody who has interest in this issue during the holiday season. PLEASE extend it.

The small amount of local jobs for a foreign company is not worth the legacy of ecological and cultural annihilation that is sure to come from this disastrous project. Please listen to the public here. This goes directly against "caring for the land and serving people" Please.

Someone who cares about Idaho,

Joey Filmanowitz
