

**Paralyzed Veterans
of America**

To: Rob Hoelscher

In addition to an email I already sent I am sending this note to oppose the Newark Exploration Drilling Project. As property owners on both sides of this projected project we are extremely concerned for our well, home foundation & the wildlife displacement in addition to the effect it would have to our properties value.

We did not buy property in the southern hills to have it destroyed by noise, dust, invasion of privacy and whatever future plans there is after the ex-

Y214687

ploratory drilling.

Please reconsider this project
and protect our wildlife and
our property rights.

David & Peggy Walloch
