Hi

the Newark Project is not an appropriate Categorical Exclusion, and the Forest Service needs to do an Environmental Assessment.

I am so tired of corporations being able to do what they want and their rights are more important than our rights to live with access to clean food and water. Put our rights above corporations!

This isn't a small project.

It is upstream from Custer that relies on clean water and French Creek runs right through Custer. Have we not learned not to risk water? It never goes well.

Have a wonderful day!
