Dear Wendy,

I understand you are the person that I should voice my concerns about the Newark Project.

I would like to ask you to reconsider giving the Newark Project categorical exclusion. It isn't a small or a short term project. It will require road clearing and other disturbances that should include cultural resource and environmental surveys as well and a long term impact plan.

Please give this project the evaluation time and research it deserves. The effects of this project could be long term for the residents and environment.

Thank you.

Camille Riner
