USFS:

1. The USFS Forestry Management plan is over 30 years old and is not protecting the forest, wildlife, vegetation and water the way that it should be.
2. F3 has no rights and no track record of clean up.
3. This project needs a **full environmental impact study**. No cutting corners.
4. No Categorical Exclusion.
5. Just like the Jenny Gulch project, F3 has not provided accurate information and maps. That, in itself, sheds light on their quality of work, honesty and integrity.
