I have reviewed the proposal for the Pond Mountain Project in the Cherokee National Forest that intends to manage this area to provide better wildlife habitat in a multitude of ways. I would like to say I am 100% in favor of this project. It is a much-needed enhancement to the forest and will provide tremendous benefit to the ecosystem and all of the wildlife that depends on it. I sincerely hope you have great success in implementing this project and plan for similar projects in the future in other areas.

Sincerely,

Chris James
