

Please place my objection
to the proposed harmful upgrade
to TSU. We need to protect
our beautiful valleys and
mountains and water ways
and not contribute to more
pollution and depletion of the
Rio Hondo. Taos is not Aspen
and all of Bacon's money cannot
ruin our beautiful environment
or get it back once changed forever.
Protect our forests and irrigated
land and don't bend to cor-
porate greed. Water is limited
and you can't make more!

Help us all protect Taos!
Thank you,  (b) (5) MK
