

To whom it May CONCERN

4-20-23

I would definitely like to see the Timber Sales in Thomas Bay happen I believe there has been Four different Logging companies in the past Plumber Log - Nordie Logging J & H Logging and Reid Timber who got The Lions Share. My wife's UNCLE lived at point Hgawitz & Trapped around Thomas Bay and never seen any Moose Sign UNTIL there was Logging. Myself My wife and Me have hunted there for 50 years. AFTER there was clear cuts there STILL wasn't any Moose TILL her Browse grew.

I believe our best Harvest year was 20+ and had several good years. Then as the second growth got Bigger and drew out the Browse the Moose LEFT the area. Thomas Bay produces about 5 animals a Season NOW.

I believe we need to harvest the second growth to build our herd again. As we all know Timber is a renewal resource. Logging will Boost our economy putting people to work stores will thrive - small air companies Freight & Fuel outlets. I can't believe people don't realize it a renewal resource IF they look around they can see it's dying on the stump.

Please push those Timber Sales Through so we can make more habitat Thank You

Helmer & Annette Olson
