

Comments on the Marsh Peak Allotment Boundary Adjustment EA
Ashley National Forest, Vernal Ranger District
Received 5/2/2023

As a permittee on the Lake Mountain Allotment. I am in favor of the Marsh Peak Allotment Boundary Adjustment.

I feel this is good management practice. It will improve the way cattle can be scattered and managed.

After reviewing the proposed alternatives. I feel that Alternative # 2 would be the best option, as it makes better use of natural boundaries. Which would make less fencing and maintenance for all involved.
