STATEMENT OF SUPPORT FOR MT. EMMONS AND THOMPSON DIVIDE MINERAL WITHDRAWAL

I support the withdrawal of the Thompson Divide and Mt. Emmons area from mining and mineral development. I encourage the United States Forest Service to withdraw approximately 224,704 acres from all forms of entry, appropriation, and disposal under the public land laws; location, entry, and patent under the mining laws; and operation of the mineral leasing, mineral materials, and geothermal leasing laws, subject to valid existing rights. The Upper Gunnison watershed and Thompson Divide area support a range of natural and community values, including boasting some of the state's most productive big game units, a long heritage of family ranching operations, and world-class outdoor recreation opportunities. This area serves as the headwaters of the Gunnison River. This 20 year withdrawal is in the best interest of the Gunnison Valley and will support my use and enjoyment of these lands. *Including the protection of our critical water resources.*

The United States Forest Service is accepting scoping comments on the proposed withdrawal of public lands in the Thompson Divide and Mt. Emmons area from mining and mineral development. The deadline to submit a statement of support is June 16, 2023. By providing your contact information below, you agree with the following statement: "I support the withdrawal of approximately 224,704 acres from all forms of entry, appropriation, and disposal under the public land laws; location, entry, and patent under the mining laws; and operation of the mineral leasing, mineral materials, and geothermal leasing laws, subject to valid existing rights."
