

# Current Bureau of Land Management Mineral and Land Records System Active Mining Claims

**Types of Claims**

**Lode Claims** - Deposits subject to lode claims include classic veins or lodes having well-defined boundaries. They also include other rock in-place bearing valuable minerals and may be broad zones of mineralized rock.

**Placer Claims** - Placer claims are defined as "...including all forms of deposit, excepting veins of quartz, or other rock in-place." In other words every deposit, not located with a lode claim, should be appropriated by a placer location.
