

Dear US Forest Service,

Attached please find 92 unique comments, as well as 838 signatures to the following form comment. These were collected by Outdoor Alliance.

If you have any questions, please contact Tania Lown-Hecht [tania@outdooralliance.org](mailto:tania@outdooralliance.org).

Dear Secretary Vilsack,

Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone.

As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process.

Thank you.

2024-10-31	Strawn, Michael	mjs55@juno.com	48093	MI	Dear Secretary Vilsack: I'd like to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across our National Forest System. As an outdoor recreationist, I want to indicate my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one reason I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment would apply. I'd also like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I hope the proposed amendments don't slow down the forest plan revision process. Two thumbs up.

2 0 2 4 - 0 2 - 0	1	David, Aaron	aarontdavid@yahoo.com	98108	WA	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As a citizen, scientist, and outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. Old growth forests are more resilient to climate change than second growth forests, provide critical fish and wildlife habitat, and are important carbon sinks. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 -	2 5	Edwards, Anthony	lakota509@yahoo.com	78723	TX	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I would like to see outdoor recreation more thoroughly integrated into the proposed plan components. I also would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 -	3 1	Metzger, Bob	rmetzger7@aol.com	98512	WA	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As a retired Forest Service Fisheries Biologist and an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the primary reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0	0	Vail, Thomas	thomasdvail@gmail.com	40206	KY	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-

2 4 - 0 1 - 2 5					<p>Growth Forest Conditions across the National Forest System. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.</p>
2 0 2 4 - 0 1 - 2 5	Cahall, Rebecca	navigator@ducttapethenbeer.com	98125	WA	<p>Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. As a former field biologist for 10 years, I know the crucial role that Old-Growth forest conditions play in the health of ecosystems and conserving the unique flora and fauna that occur in those habitats. Opportunities to experience old growth forests are one of the reasons I visit National Forests in Washington. This summer, I spent time on the Olympic Peninsula with my family and we were awed by the enormity of the trees and loved imagining what animals could live in the moss and lichen hammocks. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation</p>

				more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 5	Baker, Richard	yzrich90@ya hoo.com	85711 AZ	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As a retiree and senior citizen, I especially enjoy riding my ohv motorcycles. It's a better way to see the outdoors... As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 5	Hagstrom, Erik	erik.hagstro m@kcspart. org	98072 WA	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. I lived and played in Oregon for many years during my time in Corvallis obtaining my Wildlife Ecology Degree from OSU. In the 70's it was a grad student in the program (Erik Forsman) who first showed data on the relationship the spotted owl and other old growth associated species was suffering from the unchecked logging of the remaining old growth forests. Limits on old growth harvesting were placed and some stabilization of Owl populations followed. However, as is too often the case, it was too little too late. Now the owl and those ecosystems continue to be threatened by fire, climate change and invasion of non-native species. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2	Bradley, Kathy	khayb55@ao l.com	29078 SC	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an

4 - 0 1 - 2 5					avid outdoor recreationist, I strongly support the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 5	van Oers, Tricia	tvanoers@ya hoo.com	6796	CT	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. I can't believe we should have to 'ask' our government to protect old growth forests; it is a known fact that such forests are irreplaceable and of the greatest importance for our planet. Please don't allow greed, money and power to stand in the way of doing what is right and logical: protect old growth forests! It's simple. Thank you.
2 0 2 4 - 0 1 - 2 5	Lippert, Connie	indigo55@be llsouth.net	29672	SC	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Please read David Attenborough's insightful A Life on Our Planet. We have lost so much of the planet that supports our life in such a short time. It is not sustainable to continue doing so. Thank you.
2 0 2 4 - 0 1 -	Towner, Erline	etownr@aol. com	3055	NH	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. Old growth forests are rapidly disappearing to the incessant greed for profit, as well as the power it brings, by man. Profit is single focused and discounts anything standing in its way as irrelevant. This disregard requires a strong constitution and clarity to place boundaries that can and will reliably protect that which a wider

2 5					world view and perspective realize the value known or unknown of these objects in non commercial terms. I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 2 - 0 2	Yale, Laura	yale.laura@gmail.com	59801	MT	Dear Secretary Vilsack, I would like to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. I whole-heartedly support the strongest protections for old-growth forests, as they are hugely beneficial for healthy watersheds, climate, biodiversity, cultural identity, and their own intrinsic values. Old-growth is some of the most unique, wise, and important habitat we have -- we have much to learn from these areas if we are going to survive into the future and keep quality water and air for all. We must protect these forests now before it is too late. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. Thank you.
2 0 2 4 - 0 1 - 2 5	Gartland, Joel	joel@gartlands.net	94303	CA	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist and trails advocate, I want to voice my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 -	Ucko, Aaron	amu@alum.mit.edu	20850	MD	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an occasional outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These

And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Saving our forests is a key component to saving our planet and mitigating climate change. Thank you.
2 0 2 4 - 0 1 - 2 5	marancik, david	ddm2005@sbglobal.net	95125	CA	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. How many times do we need to go through this? We MUST protect these old growth forests. They will not return if destroyed. There are viable, profitable alternatives. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests.

				<p>These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.</p>
2 0 2 4 - 0 1 - 2 5	Pardi, Denise		98119 WA	<p>Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. As someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.</p>
2 0 2 4 - 0 1 - 2 5	O'Brien, M.	obrienmaryb@gmail.com	59860 MT	<p>Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I strongly support the proposed plan amendment, I believe it will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. Thank you.</p>
2 0 2 4 - 0 1 - 2 5	Stachecki, Julie	stachec1@me.com	48843 MI	<p>Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. The habitats in these forests take centuries to develop and if lost will not likely ever recover. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.</p>

2 0 2 4 - 0 2 - 0 1 Michael	Friend, Michael	sempervirens60@hotmail.com	96103	CA	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Please do not allow for confusing or misleading language in the plan amendment. Please include definitions of terms in the plan amendment to reduce ambiguities in the future when forest service officers will be planning projects. Thank you.
2 0 2 4 - 0 1 - 2 5 Diane	Bastian, Diane	harryboyer@frontier.com	16930	PA	Dear Secretary Vilsack, I appreciate the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 5 Perry	Gx, Perry	perrygxx@gmail.com	92780	CA	Dear Secretary Vilsack, Time is Now for Swift Action & Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the

					ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 8	Seaverson, Erin	erinrockwell @yahoo.com	53149	WI	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. 'Mother trees' or individual old trees are an important part of forest regeneration and should be protected as individuals. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 5	Nielsen, Mariane	marianeniels en1@gmail.c om	6033	CT	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. I have kept most of the text from the original letter due to the fact that I find it well put. I am also in concurrence with it. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 5	Hesh, Suzanne	textilz1@co mcast.net	85718	AZ	Dear Secretary Vilsack, I want to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I strongly support for the proposed plan amendment, which will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I expect you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components.

					And, as someone invested in the ongoing forest planning process, I intend to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 5	Givens, Nancy	nlgbg15@outlook.com	40206	KY	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. I am an avid outdoor recreationist and I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Old growth forests are a natural wonder, spiritual in their effect on humans. Opportunities to experience walking in old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 7	McDonald, Holly	mcdonaldh@optonline.net	8691	NJ	Dear Secretary Vilsack: Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist and someone who is profoundly concerned about environmental conservation, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone, as well as vitally critical wildlife habitat. As you continue developing the plan amendment, I strongly encourage you to articulate more clearly where and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. Moreover, as someone invested in the ongoing forest planning process, I would like to be assured that the proposed amendments do not slow down the forest plan revision process. Thank you for your consideration of my comments and for your right moral action in this crucially important conservation matter.
2 0 2 4 - 0 1 -	Beltz, Judith	jabeltz@aol.com	46350	IN	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As a citizen who loves and wants to protect our environment I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of

2 5					<p>climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.</p>
2 0 2 4 - 0 1 -	2 5 Nieland, Carolyn	gamsscbn@ yahoo.com	78516	TX	<p>Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. Please help save our precious dwindling wildlife and habitats! As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.</p>
2 0 2 4 - 0 1 -	2 9 Steidl, Uli	ulisteidl@out look.com	98144	WA	<p>Dear Secretary Vilsack, As a frequent recreational user as well as volunteer (trail work projects) on public lands, especially in wilderness areas in Washington State I strongly urge the highest level of protection of remaining old growth forests. They are obviously already protected within official wilderness areas, but ALL remaining old growth should be protected _like_ Wilderness. Thank you.</p>
2 0 2 4 - 0 1 -	2 5 Woolf, Susan	woolf_s@ms n.com	98107	WA	<p>Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change and preserve water and air quality for everyone. Old growth represents a hyper-valuable carbon store that takes generations to refill. See Prof. Jerry Franklin's essay 'New trees are no substitute for old trees,' available online. It has also been shown that even wildland fires leave more carbon stored than logging does. As we face ever-more dangerous climate warming, please do not neglect this resource strategy. As you continue developing the plan amendment, I encourage you to</p>

					more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 5	Strom, Sigrid	siannestrom@hotmail.com	98155	WA	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As a biologist and an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you! And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you. Charles Soriano
2 0 2 4 - 0 1 - 2 6	Kastberg, Signe	signe.jag@gmail.com	32780	FL	Dear Secretary Vilsack, I am very enthused by the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As a nature lover and outdoor enthusiast, I strongly support your proposed plan amendment, which I believe will accrue myriad benefits for people who enjoy the outdoors, who believe in climate science, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. Thank you for protecting the future of the forests, and ultimately, our future as well.
2 0 2 4 - 0 1 - 2 6	Kaufmann, Charles	cfkaufmann@gmail.com	1776	MA	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. We only have one chance to save old growth forests before they are gone forever... Thank you.

2 0 2 4 - 0 1 - 2 5	Rein, Leah	ms_le@yahoo.com	55379	MN	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. Old growth forests are a unique and vital part of the ecosystem that can't simply be replaced with new planting. They must be protected. These protections can also help maintain forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 5	Allison, Robert	oneboba@gmail.com	80202	CO	Dear Secretary Vilsack, I am writing to you as a lifelong recreational user of lands, including old growth forests, in the National Forest System. Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 5	Blackmore, Karen	blackmorekd@netscape.net	80162	CO	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These forests are awe inspiring, thinking about how they got to the stage. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly

					integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 5	Thompson, Jim	hpywndrr@y ahoo.com	98221	WA	Dear Secretary Vilsack, Thanks for letting me comment on the Management Plan for Old Growth Forests across our National Forests #65356. This is a no-brainer, Old Growth has been almost wiped-out in most areas from overcutting. This in turn reduces Wilderness, or potential areas for Wilderness designation, bad for alot of reasons. Y'all can't seem to rehab our existing overcut forests that are such a WildFire potential, leaving all remaining Old Growth will at least not add more fuel to the existing problem. You seem to be on the right track, but plz get-er-done before November just in case a maniac is in charge next year.
2 0 2 4 - 0 1 - 2 5	Montague- Judd, Danielle	dmjcomm@ gmail.com	84017	UT	Dear Secretary Vilsack, I'm writing as a U.S. citizen. Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. And, as someone invested in the ongoing forest planning process, I would like to make sure the proposed amendments don't slow down the forest plan revision process. Thank you.
2 0 2 4 - 0 1 - 2 9	Kim, Stacy	skim@alum. mit.edu	95062	CA	Dear Secretary Vilsack, I'd like to offer comments on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. Thank you for this opportunity. I recreate outdoors a lot. Old growth forests are one of the reasons I visit National Forests. Old growth forests protect climate stability, watersheds, and biodiversity. I strongly support for the proposed plan amendment, as the protections can help protect forests in the face of climate change, and preserve water and air quality for all, while simultaneously benefiting outdoor recreation. I really would like to see outdoor recreation more thoroughly integrated into the proposed plan components. I have noticed that a common problem with new amendments is confusion in application. As you continue developing the plan amendment, please try to clearly articulate where, and under what conditions this plan amendment applies, so that there will be fewer implementation issues. Also, it is important that thee be no confusion with existing plans, so please try to ensure that the proposed amendments don't slow down the forest plan revision process. Thank you for your time.
2 0 2	Harris, Holly	hollyharrism s@gmail.co m	94941	CA	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. As an

2 0 2 4 - 0 1 - 2 5	Mogren, Evelyn	ravioli.gentee l_0d@icloud. com	21045	MD	<p>Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. Often the public thinks of conservation in terms of animals only and their census and updates on their habitats happens fairly often. Trees/plants are even more vulnerable to destruction from us than animals as we can not transplant nor breed our way out of the loss of these ecosystems. This update on US forests (census and their conservation) is long over due! As a Scout BSA outdoors conservationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests with our youth. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components. There could be provisions to keep the forests protected from those very people who love them! For instance, in New Zealand there are boot and bike washing stations to keep invasive species seeds from spreading into their vulnerable forests by those who come to see them. Yet, as someone invested in the ongoing forest planning process, I would like to make sure any proposed amendments don't slow down the forest plan revision you have started as this is too important a protection step to bog down in arguments about smaller details. Thank you for your teams hard work!</p>
2 0 2 4 - 0 1	Fairbairn, Christy	justumbo@g mail.com	95062	CA	<p>Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. 2 0 2 4 - 0 1 - 2 7	Castle, Greg	outdoors@mailgreg.com	98033 WA	Dear Secretary Vilsack, Thank you for the opportunity to comment on the Notice of Intent for Land Management Plan Direction for Old-Growth Forest Conditions across the National Forest System. We don't have much old growth forest left. The forestry companies have been talking about sustainable management of forest for decades, but it clearly isn't sustainable if we're still logging old growth. We've been hearing about sustainable management of forest since the 1980s, but I think we've been sold a lie. Let's protect all old growth forest and require all logging to come from land that's already been logged. We can't afford to lose any more old trees. As an avid outdoor recreationist, I want to share my strong support for the proposed plan amendment, which I believe will simultaneously benefit outdoor recreation, climate, healthy watersheds, and biodiversity. Opportunities to experience old growth forests are one of the reasons I visit National Forests. These protections can also help protect forests in the face of climate change, and preserve water and air quality for everyone. As you continue developing the

					plan amendment, I encourage you to more clearly articulate where, and under what conditions this plan amendment applies. I also would like to see outdoor recreation more thoroughly integrated into the proposed plan components.
