2024-01-30T19:24:24Z	Karlin	Marsh	Privately owned old growth forests should also be protected. I own a mature (age 160 year) forest which I have put into a conservation easement. Since the forest is 80% hemlock, it is threatened by hemlock woolly adelgid. More funds should be devoted
2024-01-30T14:45:09Z	Rhianna	McConnell	By enacting these changes and actively protecting old-growth forests (which includes not allowing any commercial logging in old growth and mature forests) you are part of the positive change this beautiful Earth so desperately needs.
