#### **BLACK HILLS RESILIENT LANDSCAPES PROJECT:**

#### Unauthorized, but sold timber units that may not yet be cut

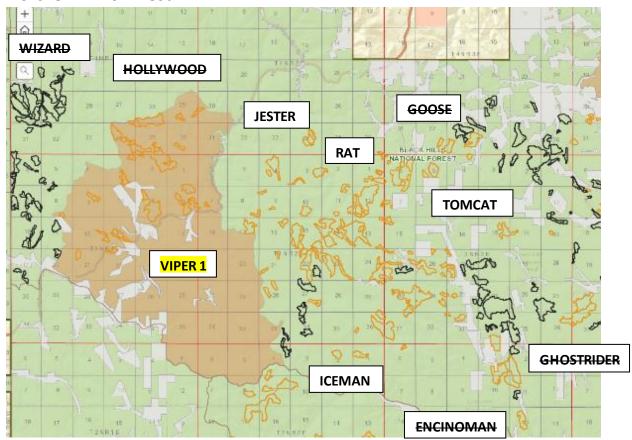

Since the Record of Decision, the Black Hills Resilient Landscapes Project implementation has included sales of many cutting units that are not disclosed to the public as such in the NEPA. A review of cutting units in sales that have been sold, or are about to be sold, shows there are likely units not designated as Potential Commercial Treatment Areas (PCTAs) that have been sold, but not cut. The tables below were developed by comparing BHRL NEPA maps with the implementation map found at <u>Black Hills Resilient Landscapes Project Implementation (arcgis.com)</u> LAST ACCESSED ON 09-06-2021

# **Bearlodge Ranger District:**
