Re: Lolo National Forest Land Management Plan Revision #62960

Dear Project Team,

We have assembled the following comments, information and issues from our members and other motorized recreationists in addition to those dated March 17, 2024 for the project record. We appreciate the opportunity to provide our comments for the Lolo National Forest Land Management Plan Revision #62960.

The Lolo National Forest Plan should adequately consider connections that will be needed as part of the Fish Creek Multiple Use Plan being developed by the Montana Department of Fish, Wildlife and Parks.

1. Routes shown with red lines on the attached map are not in current Lolo MVUM and are needed to connect to Fish Creek Multiple-Use routes.
2. Fish Creek Multiple Use routes are not shown on the attached map for clarity.
3. The Fish Creek Multiple Use Plan Map with all Fish Creek routes and features is available from FWP, Region 2 or Capital Trail Vehicle Association at [ctva\\_action@q.com](mailto:ctva_action@q.com) in either PDF or kml format.

We are looking forward to your consideration of these significant issues and your use of them to develop a reasonable Pro-Recreation Alternative for the Lolo National Forest Land Management Plan Revision #62960.

We appreciate your consideration of our comments.

Sincerely,

/s/ CTVA Action Committee on behalf of our 240 members and their families and friends
