

TO WHOM IT MAY CONCERN,  
ALTHOUGH I AM A SNOWMOBILE OWNER AND  
USER, I FEEL STRONGLY THAT SOME PLACES NEED  
TO BE AND REMAIN TO BE NON-MOTORIZED  
YEAR ROUND. THIS IS TO LEAVE PLACES UNTRAMPLED,  
REDUCE USER CONFLICTS WITH UNMOTORIZED  
USE, REDUCE WILDLIFE CONFLICTS AND AVOID  
TRASH AND OTHER BROKEN SLED PIECES FROM  
PROLIFERATING THE BC.

AREAS OF MY SPECIFIC CONCERN TODAY:

LOLO PASS, HOODOO PASS, ST. REGIS BASIN,  
WISHFED RIDGE, AND MORDEL MOUNTAIN.

I BELIEVE ALL OF THESE ARE BEST  
CATEGORIZED AS "SEMI-PRIMITIVE NON-MOTORIZED"

ALL OF THESE AREAS ARE BEST SUITED FOR  
NON-MOTORIZED USE YEAR ROUND.

I OPPOSE FS 16675 AND FS 1891 IN CRYSTAL  
AMPHITHEATRE AND ST. REGIS BASIN.  
BOTH OF THESE PLACES SHOULD BE CONSIDERED  
SEMI PRIMITIVE, NON-MOTORIZED.

THANK YOU FOR  
READING MY COMMENTS
