

Due to this, I am asking you to restrict motorized access to both Crystal Amphitheater on Lolo pass & Saint Regis Basin. Please consider it as a Semi-Primitive motorized setting. Please restrict snowmobile access to prevent conflict & trespassing in the deeper lower area.

I oppose both FS 14675 & 18591 as open to motorized winter travel.

Please also significantly reduce the motorized buffer zone along Marcell Mt Lookout Road (FR 4365) to help protect non-motorized access to this terrain near one of the few Montana backcountry yurts.

Thank you,

Careigh LeBlanc
