

Upper North Fork Nooksack River Access and Travel Management Project

ERIN ULOTH

Mt. Baker District Ranger

I like most, am in opposition to your plan.

1) I was at all the meetings in the Bellingham area and there was at least 90% in favor of alternative A, to do nothing, to say different is a lie.

2) Spent 9 years on the Whatcom County Planning Commision, lots of times we wanted to make a major change to a plan and were told it's not legal and would have to go through the public process again to do the change. The seasonal closures were NOT in the plan, this constitutes a major change.

3) I am tired of fighting my Government to be able to use our land, it's crazy.

4) The Indian tribes do not have control of this land, Americans do.

5) Will Erin do an onsite interview with Fox News? need a yes or no answer.

Ron Roosma
