To whom it may concern.

I am writing to voice my objection to the proposed new Lanl power line. Lanl has already made such a huge irreversible footprint on the natural landscape of northern New Mexico and taken so much land away from the people and natural habitats of local wildlife. It is so greedy, unimaginative and short sighted to grab more land for a project like this. Lanl is supposedly filled with some of the brightest minds in the country right? They can't come up with a sensible alternative? What happens when three power lines become insufficient for their needs? This take over of more and more lands needs to stop. I hope my objection along with the countless others will be respected. This ecosystem of New Mexico needs to be treated with more sensitivity and awareness otherwise we will all lose out on what makes this place special.

Sincerely,

Pablo Ancona
