Subject: Interested Person Request

I, bill Renison living at [REDACTED], am requesting interested person status in the LANL Electric Power Extension. Project.

If more information is required of me please advise and contact me using my personal email as follows:

[REDACTED]

My objection is based on the further unwarranted trespass on sacred nature of this land to Native American and use for additional power lines when feasible alternatives are readily available. I have unobstructed distant view of the proposed right of way and The Lab Complex from my property.

Thank you
