We own a home in The Village of Oak Creek and have lived here for almost 30 years. We chose to live in this area because of the unaltered natural beauty that surrounds us. We are contacting you as longtime residents to strongly object to placing huge, highly visible above ground transmission lines on SR 179. We chose to live here and many visitors come to Sedona because of the red rock views. Transmission lines will permanently alter the unobstructed natural beauty of an open space unlike any other, not found anywhere else, of majestic red rocks and clear skies.

Cythia Tierra and Gino Romeo
