RE: Letter of Support for Breckenridge Stables Facility Upgrades

Sarah,

Breckenridge Ski Resort (BSR) would like to express its support for the proposed actions by Breckenridge Stables. The proposed improvements would occur within the special use permit area shared by BSR and Breckenridge Stables, and the facility upgrades as planned would provide a consistent level of quality throughout the mutually used space on Forest lands. The visuals and aesthetics of the proposed facilities would improve the guest experiences for both entities and present a unified vision of excellence.

BSR appreciates the product that Breckenridge Stables provides as it complements the experience and offerings that the resort offers, and continued improvement in our shared permit area will help our operations. BSR is excited to continue our partnership with Breckenridge Stables and looks forward to a new and improved guest experience.

Respectfully,

DocuSigned by:
