Hello,

As a long time resident of West Sedona, I'm acutely aware of fire danger in our majestic natural area.

If APS is allowed to built its 2.5 mile power line from VOC to McGuireville, that exponentially increases the risk of losing all of this precious beauty, and it will be an eyesore in addition to fire risk.

Everything that's been done to preserve this landscape will be for nothing except expedience for APS. Any additional power line must be underground.

Enough selling out Sedona and its environs for \$\$.

Thank you.

Sherry Gordon
