**Compass Direction** from Road (Check One)

N \_\_\_\_ NE \_\_\_\_ E \_\_\_\_ SE \_\_\_\_ S \_\_\_\_X\_ SW \_\_\_\_ W \_\_\_\_ NW \_\_\_\_

Road Number from Siuslaw Road Map: 12

Measured Tree Circumference (inches): 223–Doug Fir = Diameter: 70.99  
(Circumference / 3.141 = diameter)

Estimated diameter of Typical Dominant (tallest) Trees (inches): 65+

Place an X next to tree species present. Doug fir: x Hemlock: x Cedar: X

Sitka Spruce: Alder: x Big Leaf Maple:

Is a shade tolerant understory of Hemlock or Cedar present? Yes: X No:

Describe understory: Thick with tall mature understory plants and lots of variation of tree height , largest canopy trees mostly Doug Fir, Hemlock, and Cedar

### Plants Identified

Huckleberry: X Salmonberry: X Thimbleberry: X Blackberry: x

Elderberry: X Vine Maple: X Dogwood: Cascara: X

Salal: X Ferns: X Moss: X Lichen: X Fungi: X

Notes on other plants present:

Animals observed:

Birds Present:

## Notes:

This stand is on the south side of the ride as it winds around, for about a quarter mile, some of the trees are marked with orange flags and sprayed orange around the base. This is a mature stand of trees along either side of a drainage with masses of understory vegetation and layered canopy.

## Keeping Track of Your Forest Photos

Option 1: Before you take your forest photos, write down the forest visit name on the form and take a photo of the name. Then take the forest photos. Note that the photos **after** the forest visit name belong to that name.

Option 2: Take a screen shot while your GPS app is on before your forest and tree photos (I-Phone).

**Optional** (All information in the form will be viewable by the public)

Your Name: Madeline Strawberry and Tony Strawberry

City: Woodburn

State: OR

Insert Stand Photo (**Optional**)

ID/Name

Insert Photo of the typical tree that was measured (**Optional**)

ID/Name:

Save the document as a pdf file for uploading to the Forest Service comment portal.
