RE: Jackson Hole Fire/EMS comments for the Shadow Mountain Habitat Enhancement Project

Dear Mr. Stiles and Mr. Wilmot,

I am writing to express our support for the Bridger-Teton National Forest planned project, “Shadow Mountain Habitat Enhancement”.

Jackson Hole Fire/EMS has worked with the Lost Creek Ranch neighborhood throughout their mitigation work, and we are pleased to see our federal land managers planning to treat lands adjacent to that area. It is through this type of collaboration that we will truly become a fire adapted community.

The proposed actions in this plan are clearly defined and supported by the information presented in the scoping letter for the project. Jackson Hole Fire/EMS is ready to be engaged and supportive of the project moving forward.

Sincerely,

M. Moyer

Mike Moyer
Fire Chief
