Subject: Letter of Support for the Winter Park Resort Projects 2025 EA

Dear Supervisor Stubbs, Mr. Roeber and other reviewers,

This letter is submitted on behalf of the Winter Park & Fraser Chamber of Commerce Board of Directors to express their strong support for the approval of the various projects outlined in the 2025 Environmental Assessment (EA) filed with the USDA Forest Service, Sulphur Ranger District of the Arapaho and Roosevelt National Forests and Pawnee National Grassland (USFS) in January, 2023. The Chamber staff and Board have attended Presentations and Open Houses throughout the planning process and are well informed about the expansion projects. The Chamber views these projects – as well as others that are contemplated in the 2022 MDP as essential to our community and the public's use and enjoyment of these public lands.

As noted in the EA that was filed by Winter Park Resort, there have been several opportunities for public involvement and comment on the projects outlined in the EA. Having attended all of the public meetings and reviewed the various comments that have been submitted, we do not see any substantive concerns that should cause the delay in approving this EA.

Thank you for considering our letter of support for this EA. We ask that the USFS grant timely approval of the proposed and future projects given their importance to our community. Please do not hesitate to contact me if you require additional information or have questions about the Town's support for these projects.

Sincerely,

Catherine Ross
