RE: Southern Tenmile Recreation Access Project

Dear Dillon Ranger District Recreation Staff Officer:

The Town of Breckenridge (Town) respectfully submits this letter to represent our support for the Southern Tenmile Recreation Access Project (STRAP). The zone of the proposed plan area is located within 3 miles of the Town's downtown core, creating a significant overlap between visitors and residents of the Town and users of the project area. As such, we have a deeply vested interest in the project's success.

With over 237,000 annual visitors to the project area, it is critical that careful planning aims to balance protection of the user experience with the preservation of the natural resources themselves. We believe the proposed plan lays the groundwork necessary to achieve this balance and we look forward to continuing to work with our land-managing partners at the United States Forest Service, Summit County Open Space, Colorado Springs Utilities, and the Town of Blue River to incorporate valuable public feedback and scientific analysis into the further refinement of the plan.

Thank you for the opportunity to comment.

Sincerely,

  
Kelly Owens (Aug 19, 2025 11:26:35 PDT)

Kelly Owens  
Mayor  
Town of Breckenridge
