Re: Mokelumne Amador Calaveras (MAC) Forest Resilience Project DEIS Comment Period

Dear Supervisor Kuiken and Supervisor Fournier,

The Alpine County Board of Supervisors enthusiastically supports the Mokelumne Amador Calaveras (MAC) Forest Resilience Project proposed by the US Forest Service in the Eldorado and Stanislaus National Forests. The risk of wildfire from overstocking and climate change is a direct threat to our communities and reducing fuels are crucial to mitigating these risks and improving forest health. Alpine County is grateful to see the project includes many of the neighborhoods and recreational areas around Bear Valley and Kirkwood, as well as the very popular recreational areas in western Alpine County. The Board supports the proposed actions listed in the Draft Environmental Impact Statement (DEIS) including: Forest Thinning, Fuel Reduction, Fuelbreaks, Fuelbreak Maintenance Using Herbicides, Prescribed Fire, Targeted Grazing, Treatment Access Activities, Non-Native Invasive Plant Control and Eradication, and Project-Specific Forest Plan Amendments.

We sincerely appreciate the efforts of the US Forest Service to keep the public safe and reduce the wildfire threat in Alpine County and look forward to working collaboratively on these efforts. Feel free to reach out to Alpine County directly if there's anything further we can do to assist in supporting these or similar projects.

A handwritten signature in blue ink, appearing to be "David Griffith", is written over a horizontal line.

David Griffith, Chair

Alpine County Board of Supervisors
