

Appendix D Photos of the Laydown Areas

Laydown 1 and 2

Laydown 1 is in healthy, mature sagebrush and in the Larken Lake IRA. Laydown 2 is in sagebrush as well.

Laydown area 1

Laydown area 1

Laydown area 2 in 2026

Laydown area 2 in 2020 as part of the Spring Peak project

Laydown 3

The southern boundary of this laydown area is where the slope drops off significantly. The roads below NFD 058 Trail are seriously eroded. Some pinyon trees will need to be removed. The lone pinyon where the pin is was limb'd in late fall of 2020 for the Spring Peak project. Prior to that it was covered in sagebrush.

Laydown 4

This laydown area is in a healthy, low/black sagebrush steppe that wasn't burned in the 2013 Spring Peak Fire, yet a good part of it has been destroyed with the Spring Peak project and an even larger area will be destroyed with the Burnt Rock project.

Laydown area for Spring Peak before it was cleared.

Laydown area for the Spring Peak project before it was reclaimed. When this area is widened for the Burnt Rock project, it will remove more of the low/black sagebrush.

Reclaimed Spring Peak laydown area. Now larger than before it was reclaimed.
