

Tongass Forest Supervisor Monique Nelson,

The proposed Twin Mountain II Timber Sale project on Prince of Wales Island would open more than 1,600 acres of old-growth forest to logging, threatening critical habitat for wildlife like the Alexander Archipelago wolf and damaging ancient forest ecosystems that can take centuries to recover.

The Tongass is one of the world's last remaining old-growth temperate rainforests and one of America's most important carbon sinks. I urge the Forest Service to select the no action alternative (Alternative 1) and protect the Tongass from destructive old-growth logging.
