Last name: Mattice

Organization:

Title:

Comments: I agree with the "desired condition" goals to reflect historic conditions and ideal habitat for wildlife. Restore, protect from too much logging and grazing all waterways. Watersheds should be given priority for restoration and protection.

no new roads

Designate more wilderness areas - al on table 35 , page 123.

Is there enough monitoring and enforcement of the livestock grazing allotments?

Push for more wild and scenic river designations.

Logging and grazing allowed only towards goal of forest/watershed health.
