I am writing on behalf of the Village of Milan, as a Cooperating Agency participating on the Mt. Taylor Landscape Team. As a participant in the process of developing a Draft Forest Revision Plan, we would like to weigh in on our preferred option. As the Forest Service works toward a final plan, we want to make sure that the Forest Service knows that the Village of Milan prefers the Plan B option.
We appreciate the ability to participate working towards a plan that serves diverse interests and advocates for the best possible management of our forest recourses and assets. We value the opportunity to participate and acknowledge the sincere effort on behalf of the Forest Service to solicit a broad public engagement designed to facilitate the best possible outcome.
We look forward to a continued partnership and future work with the Forest Service. Please keep us informed as to how we can be involved and support the initiatives under the directions of the Cibola National Forest.
Sincerely,
Marcella Sandoval
Village Manager
