First name: Judy

Last name: Prosser

Organization: Bar T Bar Ranch, Inc.

Title:

Comments: Coconino National Forest

Attention: 4FRI

I recently sent in a series of comments, but failed to add one that I think is important:

Burning in the name of "Restoration" needs to accomplish that objective. Restoration needs to kill the targeted number of trees. Burning grass and pine needles does not accomplish the same objectives.

Once again, thank you for the opportunity to comment.
