Comments: Happy New Year!

Attached please find the Wilderness Society's feedback on the Draft Assessment and Need to Change documents. We appreciate the opportunity to offer this feedback. Let me know if you have any questions or have trouble with the attachments. Thanks for all the work that went into preparing this assessment and congratulations on completing this stage of the planning process.

Also, I tried to submit this through the electronic CARA system, but got a long, slow [ldquo]connecting[rdquo] message without ever connecting to the system. Not sure what the trouble is, but wanted to alert you to it!

All the best
