Comments: Public Lands - Public Use    Vail Resort's trend over the last several years has been to (quarantine) more of Vail Mountain's skiable terrain to "special interest" use - vis-à-vis - Ski Racing and Burton Open Snowboarding in Golden Peak. This has (to date) been done by restricting General Skier use of the Golden Peak area in favor of "special use" - for too much of the (5) month Vail Ski Season.

I'm not opposed to (occasional) use for special ski events - however don't see the public benefit for Public Lands to be (re-dedicated?) for the use of a minority of Skiers/Snowboarders and private Skiing interests.

I do not support the expansion of skiable terrain in Golden Peak - for this reason.
