First name: Ephraim

Last name: Greenwall

Organization: 8th Street Marketplace

Title:

Comments: Dear FS Keith Lannom:

As an adopted citizen of the State of Idaho and an avid user of the awesome Federal lands which you manage, I am writing in strong support of the Stibnite Gold Project.

When Federal Lands benefit from enormous environmental clean up, it is generally a great thing. I support the private public partnership between Midas Gold and the U.S. Forest Service.

Midas Gold is clearly serious about protecting our natural resources as they attempt to extract gold ore from the Stibnite claim. The fact that Laurel Sayer, a life long respected conservationist, is the CEO of the Midas Gold operation speaks volumes. This project will only be good for Idaho and for our natural resources. Midas Gold will leave the site better than they found it. A really good outcome for everyone.

Please feel free to contact me with any questions at any time.

Regards,

ephraim greenwall
